Intellectual Property Protections

Aktin absolutely understands that Intellectual Property is your most valuable asset. Ownership of IP is based on a mutually agreeable contract with regard to each project and some basic principles are as follows:

1. Any work performed by Aktin and based on the technology package provided by the customer belongs to the customer.
2. Ownership rights to the results of technical work paid for by the customer belong to the customer.
3. Intellectual Property ownership rights to work paid for by the client and that incorporate Aktin proprietary technology will be determined according to individual contract agreements.
4. Any work performed by Aktin that is not paid for in a contractual R&D working arrangement belongs to Aktin.

We are completely open to all kinds of cooperation proposals regarding the contract services!
